

WASTE MANAGEMENT OF DELAWARE CUSTOMER NOTIFICATION

State of Delaware DNREC bans trash disposal of all Yard Waste in south New Castle, Kent, and Sussex Counties

As a result of Delaware's recently imposed Yard Waste Ban at all Delaware Solid Waste Authority (DSWA) landfills, we at Waste Management want to inform you that we can no longer accept Yard Waste mixed in your regular trash service pickup. This is effective January 1, 2011.

Any trash receptacle that contains Yard Waste will not be collected. DNREC defines yard waste to include grass, leaves, pruning debris, brush, shrubs, garden material, Christmas trees and tree limbs up to 4 inches in diameter.

If you have any questions, please contact the Waste Management Customer Service department at delmarvacustomerservice@wm.com or call toll free at 1-800-773-7145.

We recommend these options to manage Yard Waste as a Delaware Resident:

- DSWA curbside Yard Waste collection program charges a fee of \$1.00 per bag. Call DSWA at 800-404-7080.
- Transport your Yard Waste to a DNREC designated facility. Go to DNREC Website www.dnrec.delaware.gov for additional information.
- Have your landscaping service manage the yard waste.

NOTE: As a Swann Keys Association member, it will be your responsibility to arrange with DSWA for any curbside pickup of your "Yard Waste". The Association is NOT responsible for curbside "Yard Waste" pickup or the DSWA fee.

Swann Keys weekly Trash Pickup will remain on schedule excluding the "Yard Waste" as indicated in the above mentioned notice.
